Being smart about your body can really pay off in the long run.

Nutrition Facts

In the southern United States, a tractor mower implement is most often called a bush hog. MORE FROM QUESTIONSANSWERED.NET Your daily values may be higher or lower depending on your calorie needs. Bush Hog is also a brand name for these types of mowing implements. Other common tractor implements include a box blade and a front-end loader for land clearing and creating smoother pasture or yard areas. This makes the bush hog an extremely handy implement. Bush Hogging for Tractor OwnersBecause the bush hog tractor implement is so handy for mowing large areas, many tractor owners purchase a bush hog implement when they buy the tractor. Check out everything you need to know here.Check Out Bush Hog ImplementsThe term "bush hog" is usually used to refer to almost any type of mowing implement that is attached to the PTO (power take-off) on the rear of a tractor. In the northern United States, you might find this same implement referred to as a brush hog. The term Bush Hog might refer to the company

that makes the brand name Bush Hog implements or might refer to the generic bush hog that is any mowing implement attached to a tractor.Bush Hog Uses and PricesBrowse a Bush Hog parts catalog and you'll learn more about the bush hog type of mowing implement. The mowing attachments are designed to be attached to the lift arms or three-point hitch at the rear of the tractor and to the PTO that provides power to the mower itself. Bush Hog flex-wing rotary cutters offer cutting widths as large as 20 feet.Difference Between a Bush Hog and a Brush HogThere really isn't much of a difference between a bush hog and a brush hog other than location. Used for clearing land, cleaning up pastures and finish mowing, a brush hog is a handy tractor tool. A Bush Hog mower is available in a variety of sizes including a John Deere five foot bush hog, six foot bush hogs and larger mowers for big projects.
