Teleport [Edit | Edit Source Code] Update History [Edit | Edit source code] This information has been compiled as part of the historic update project. When used, ectophial provides an instantaneous teleportation for ectofuntus out of Fort Phasmatys. The ectofial teleporting animation

ectofial is also a valuable teleportation item because it provides the only fast shipping to the Port Phasmatys area where there is a bank and a chartered ship. In addition, a fairy ring (alQ code) is not far from the agricultural area, providing fast access to zanaris and fairy network if the player still has no Tokkul-Zo. The ectofial can also be used to save loads on the Drakan medal, already if I teleport to the ectofuntus before operating the Drakan medallion allows someone to teleport with the medallion for free. Players could leave their ectophial empty simply moving away from the ectofuntus immediately after the arrival in order to interrupt the refueling. It is described as a € œA brilliant green bottle of ectoplasmaa € and it is said that ectofuntus is the source of your energy.
